# Features

TE4052T

## Pull Type Version

Pull-type design with low weight and power requirement. The low weight of 904 lbs (410kg) is ideal for applications with small tractors, or in hilly terrain.

## Gearbox

The Kubota TE4052T features a maintenance friendly gearbox, with only one grease nipple. The gearbox is mounted directly to the frame that provides full support across the tedder.

## Super-C Tine

The Kubota Super-C tines are made of 9mm shot-peened spring steel for added strength and extended service life, even when tedding large quantities of crop.

## Strong Chassis Design

The Kubota TE4052T is built around a rugged new box section chassis, made out of one piece of metal with only one welding seam - for maximum rigidity. The chassis design is fully enclosed at the top edge for maximum strength.
