## BX1870/BX2370 BX2670 (TOP)

### FEATURES

#### **Versatile Category I 3-point Hitch**

The BX-Series all feature a sturdy, hydraulically controlled Category I 3-point hitch that allows you to attach a wide array of rear implements.

#### **Front Implement 4-position Control Valve**

A front 4-position valve lets you quickly and easily attach a front loader and other front-mounted implements. The valve is easy to access but won't obstruct operations or impair the tractor's clean and sleek look. (Tractor can be ordered without valve.)

#### **Quarter-inching Valve**

With increments of one quarter inch at the lower link end, Kubota's quarter-inching valve provides easier implement control. The lever guide's regulator allows smaller adjustments, which are often required when attaching/detaching 3-point mounted implements or performing delicate jobs.

#### **Large Fuel Tank**

You get more work done when you're not stopping frequently to refuel. The BX-Series' large 6.6 gallon fuel tank ensures that refueling operations don't hinder your work schedule.

#### **Metal Hood / Fenders**

Strong and durable, the BX-Series' metal hood and fenders resist dings and dents, ensuring that your BX tractor continues to look good.

### FEATURES

#### Spacious Operator Area

Operator comfort has been enhanced by a new, fully flat deck layout with the brake on the left side, providing more room for the feet. The new design also improves operability.

**A- Fully-flat Floor & Large Legroom**

**B- New Left-side Brake Pedal**

**C- Hand Rail**

**D- Cup Holder**

**E- 12V DC Outlet**

**F- Deluxe Lever Guide**

**G- Tool Box (Optional)**

#### Easy to Read Meter Panel

A new control panel design enhances operability by placing all vital indicators on a single, easy to read panel. The new panel features a coolant tachometer on the left and an LCD display for fuel level and coolant temperature on the right. Warning indicators for battery, headlights, turn signal, and low fuel are in the middle. With just a single glance, you get a complete picture of your tractor's functions.

#### Cruise Control

Cruise control automatically maintains a constant speed, letting you take your foot off the forward pedal. It's the easy way to mow large areas or travel long distances.

(Optional on BX1870)

#### Foldable Rops

Now standard across all BX-Series models, this ROPS meets SAE specifications and provides for safe and efficient operation. It also easily folds down without tools, allowing the tractor to pass under low-hanging obstructions. It also makes for easier storage of the tractor in a garage or shed.

(Note: Kubota recommends that the ROPS be in the up position during most operations.)
